## Pitch sessions

### Start-up Slams

The Start-up Slams are a great opportunity for **young companies** (and particularly for start-ups seeking to raise a seed or a Series A financing round) to showcase their project in front of potential partners and investors.

### Collaborative and licensing opportunity presentations

The Collaborative and Licensing Opportunity Presentations are a great opportunity for **TTOs, universities, research institutes** and **companies** to showcase their early-stage technologies in front of potential partners, in order to entail a collaborative project and/or a licensing deal.

### Animal health presentations

Sponsored by: SIMV

The Animal Health Presentations are a great opportunity for **young companies, TTOs, universities, research institutes** and **companies** to showcase their innovative project in front of potential partners and investors in the Animal Health sector.

The selected candidates will be offered to present their project and receive advice and feedback ("speed-mentoring") from a panel of experts.

The winners will be awarded as the most innovative start-up and the most promising technology in Life Sciences.

## R&D dating for animal health and innovation

Since its first edition, the "R&D dating for Animal Health and Innovation" business convention, initiated by SIMV (the French association of the animal health industry), has been organised along with BioFIT. This year again, this major meeting of Animal Health innovators will hold its 7th edition within BioFIT 2021.

A **European meeting place** for innovators involved in Animal Health.

A **leading European event** by its importance and by the number of institutes from different countries.

The field initially covered in **veterinary medicines and diagnostics** now extends to **medical technologies and data** devoted to Animal Health.

More than **650 face-to-face appointments** between animal health players.

**10 and 15 partnership proposals** by academic research institutions or start-ups to animal health manufacturers.

Initiated by: SIMV
